

## *Map of the worldwide solar radiation*

### **Folded map**

Solar Radiation  
(in three languages: en/fr/de)

ISBN 978-3-033-01116-8

folded size 15 cm × 20 cm,  
opened size 90 cm × 60 cm

The map shows the solar global radiation (in kilowatt hours per square metre) that reaches the earth's surface annually.

A low-priced map – for all who are interested in solar energy, for schools and training courses, as a first orientation for experts, as a gift for the clientele of solar energy enterprises.
